

# Windows Dictionaries

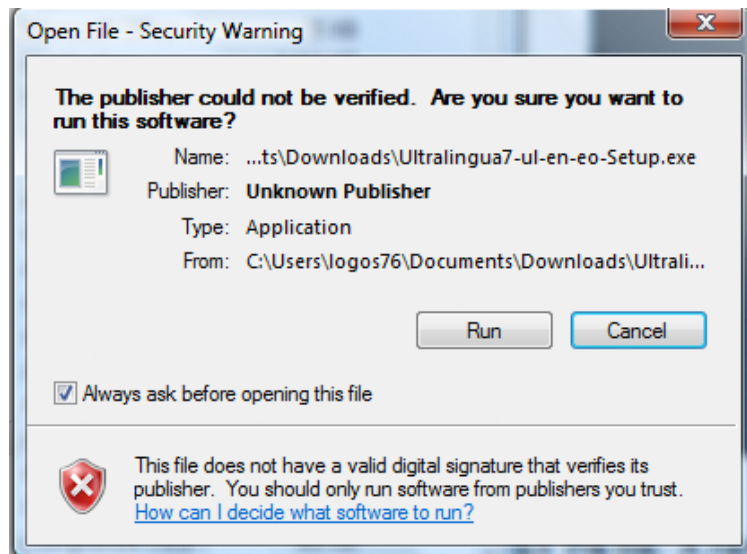

---

Basic Installation and Key Registration Guide

## Installing a Single Ultralingua Dictionary

---

1. Download your dictionary for Windows from our website at <http://www.ultralingua.com>.
2. Once your download has finished, double-click the executable file. A new window will appear. Click the button labeled “Run” to begin the installation.

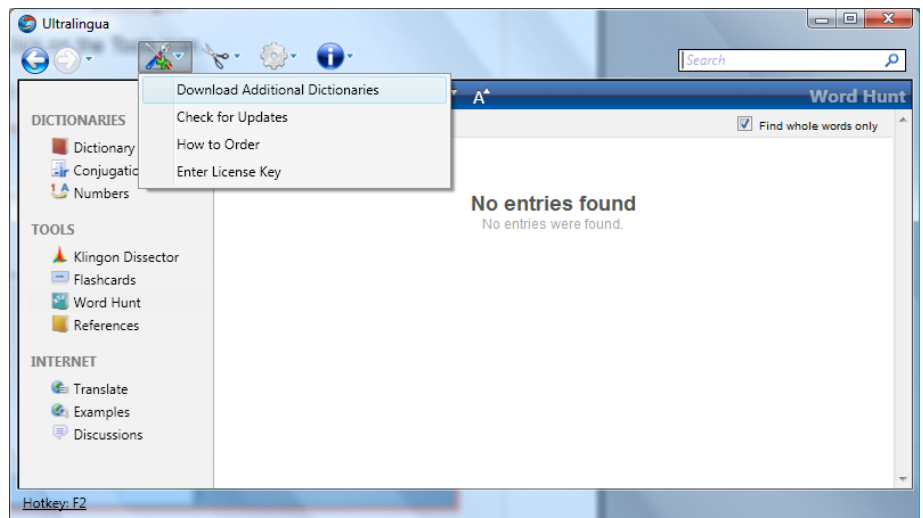

3. The Installer will guide you through the rest of the installation. We recommend accepting the default settings unless you are an advanced Windows user.

## Installing Additional Dictionaries

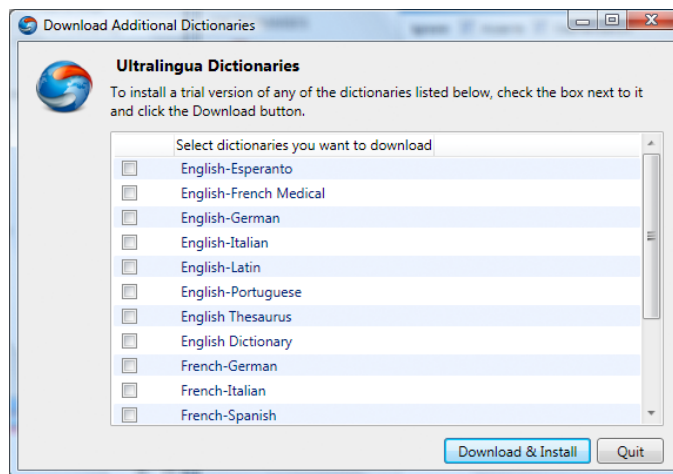

---

1. Launch Ultralingua.
2. Click on the Tools icon.
3. Select “Download Additional Dictionaries” from the menu.

4. A new window will appear.

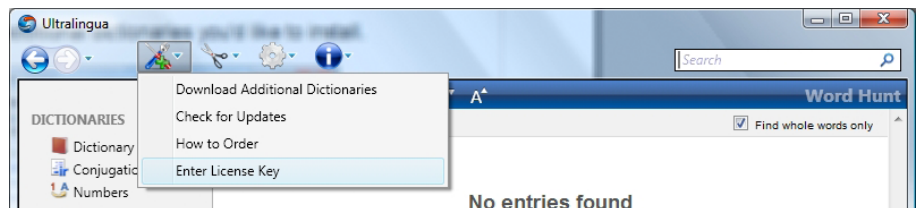

5. Select any and all additional dictionaries you'd like to install.

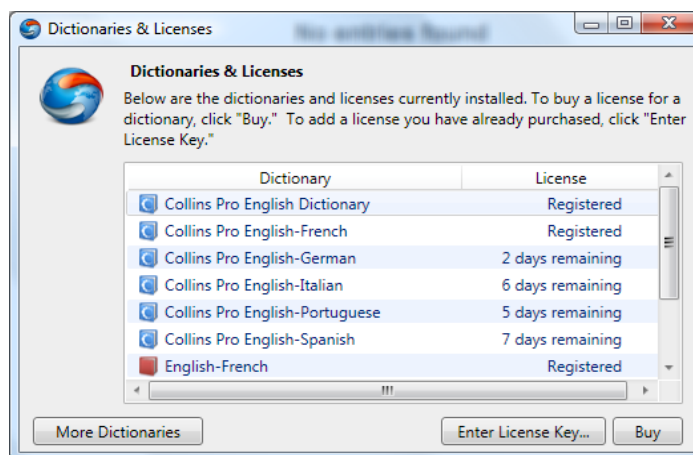

6. Finally, click on the button labeled “Download & Install” and wait until the download and installation are completed. Ultralingua will restart automatically.

## Entering Your Registration Key

1. Launch Ultralingua
2. Click on the Tools icon.
3. Select “Enter License Key” from the menu.

4. A new window will appear.
5. Click the button labeled “Enter License Key...”

6. Enter your Registration Key exactly as it appears, being sure to include the part with your name after the dash. The easiest way to do this is to simply copy and paste your key directly from your confirmation email.
